

Nerd Rock Boogie

((Spirit of the Boogie - Ripptide) ÷ Elvis Costello) + a fuzzbox x a good pair of bowling shoes, worn casually.

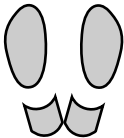

A good Nerd Rock Boogie generally involves:

1. sticking your feet together and to the floor — picture a molecular bond from foot to foot, and from sole to floor — and
2. a lot of wild hip gyrations with flailing arms, hands balled into ineffective never-thrown-a-punch-in-my-life fists.
3. Mouth can be open or closed, but eyes must be popped in amazement at the holy crap I am so awesome at this overwhelmingness of a Nerd Boogie accomplished.

But, y'know, *rhythmic*.
